“ Adam, you are already missed so very much. It just doesn't seem real and never will. But I know you are in Heaven and rejoicing with God, our Dad and our grandparents and even old friends. No more pain, no more worries. I miss you so much brother and wish I was able to see you one more time. When I picked up your ashes yesterday, I'm glad I was able to talk to you and vent to you. You rode in my passenger seat all buckled up like you were really beside me. I will never forget all the fun times we had growing up together. I think about you everyday. I love you so much and we will reunite one day!!! Until then, I know your watching over me and my children. I love you!!!
