“ I bought a used piano about 25 years ago. When I was cleaning it today, I saw where J.C. Hill had worked on it in 1957. My piano originally came from Forbes Piano where Mr. Hill was employed. I was telling my friend about finding his signature written inside my piano and she told me that Mr. Hill and his wife were members of the church they go to. That is when I looked his name up on the internet and found his obituary. It was the same Mr. Hill that worked on my piano 60 years ago. I'm sure there are other pianos out there that have his signature in them also.
