“ *Opal was the oldest girl in a family of 8 children. After having open heart surgery in her early 20's she went to work as a transcriptionist with Jefferson Health Foundation & eventually moved to recruiting physicians for the group. She & her husband Ray opened Word Services, a transcription business with a \$10 K loan, eventually they added a printing business. Later she opened her own physician recruiting business & continued with that until she retired. After her retirement she was able to persue more relaxing challenges including golfing & sailing. Her church life played a big role in her life & Enon Baptist church was her home congregation for many years. In recent years her health & life circumstances limited her ability to attend as much as she wished. Today, October 12, she would have celebrated her 81st birthday on earth, instead she is now at rest with no more of the mental challenges to deal with. Happy birthday Sis, you were loved in life & you will continue to be loved in our memories!!*
