DE

This is his daughter. I am requesting the removal of my photos from this obituary. He was a terrible father. The pain and suffering he caused is something I will never fully recover from. My brother ended his life as a result of it. He was able to fool others very well but subjected his former wife and children to years of emotional abuse and cruelty. I have no good memories of my childhood and lived in constant fear. Please honor this request.

DO

Why are childhood photos of my deceased son posted here? His father was an unloving and sadistic person. Perhaps others might have a positive view of him but the image he projected in public was very different than the person he was behind closed doors. He should experience the same trauma and hell he put his family through.

I'm his granddaughter. He never made an attempt to contact or establish a relationship with me or his other grandchildren. I feel sad for my mother because she was very young the last time she saw him and hoped he would reach out to her one day to at least express remorse but that never happened.
