“ Grandmother, It still hard to believe that you have gone home to be with Granddaddy. Most of all you are home with our Heavenly Father and the Maker of everything. It just seems as it were yesterday that that I remember you cooking good ole' vegetables and seeing Granddaddy sitting at the top of the steps on the back deck at your house. You are truly going to be missed. I was really blessed to have a Grandmother like you. It is hard to keep myself from picking up the phone and calling you. When you always answered the phone when I called you always would say "Hey there buddy what are you in to". We have lots of great memories growing and coming to see you.

Grandmother, We love you so much but we all have the hope of seeing you again and I cannot wait for that day. I cannot imagine how it would be like to be walking the streets of gold, now you are. We love you, Jeff, Debbie, Josh, Jordan, Jonah, and Jacob

“ I am going to miss Aunt Vick. She was a very special lady and lived her life each day that she would be a Christian witness to everyone she came in contact. Growing up, she was always a lot of fun and had a smile for all regardless of the circumstances. Truly, she walked with God and He carried her when the road became bumpy. My prayers are with the family during this time of sadness, but we know that she is rejoicing.

“ I'm sorry for your loss. I lost my father so I can understand your pain. Death is never easy to accept which is why it's called an enemy in the Bible at First Corinthians 15:26. But Jesus gave us a hope based on the Bible at John 11:25: "I am the resurrection and the life. He that exercises faith in me, even though he dies, will come to life." So, we will be able to see our loved ones again by means of the resurrection. Then we will never have to lose them again. Why can we say that? Because God has promised us this in the Bible at such scriptures as Isaiah 25:8, Isaiah 26:19, and Revelation 21:3-5. Isn't this good news? Please read these scriptures in your own Bible. Sincerely, Rosemarie
